

Generative Human Music.

Guitar-fronted jazz fusion. Completely improvised.
You prompt, we play.

THE LIVE SHOW

Someone in the audience gives us a song title. We turn it into a song, live. Everyone is a multi-instrumentalist, and sometimes we swap instruments mid-song. The core lineup draws from a pool of players, with guest musicians often joining us.

REGULAR SACRAMENTO DATES

Interested in a residency, monthly date, or biweekly run. A regular place to play, build a following, and make something different each time.

Jazz Odyssey session / May 2023

SETUP & SOUND

Easy setup and fairly self-contained.

PA available. We coordinate the lineup, space, set lengths, and sound requirements with each venue.

Sean handles engineering; every show is recorded in audio and video.

THE BAND

Sean Ashe & Matt Hopper - founders

Jobany Betancourt & J.C. Sanchez - founding members

The band began as Jazz Odyssey, a name inspired by Spinal Tap. A reason to jam with great musicians, without a songbook or the pressure to make an album.
